

Compression screws

Designed and produced in Austria

Advantages of the Hofer compression screws

With our completely new and innovative compression screws, we offer a real alternative to conventional compression screws. A variety of technical solutions, make our screws so unique.

- + Self-tapping, self-drilling and self-reversing
- + Excellent force transmission thanks to the ForceDRIVE screw head with „Stick-Fit“ technology
- + Optimized primary stability as a result by conical core diameter of the screw thread
- + Head thread in perfect coordination to the screw thread gives an optimal, long-lasting compression
- + Excellent self-drilling function thanks to optimized clamping, clearance and wedge angles, resulting in an exact cut

Excellent cutting performance
thanks to optimized
cutting angle

HOFERS TOP 3 FEATURES

Perfectly matched head
and screw threads result in
optimal compression

self-reversing

+ The adjusted height of the screw thread and
shaft area result in a precise fit

creating partnership

For us, a partnership is the result of a long and happy relationship in all areas of our work. Reliable bone healing for patients, optimal handling of the systems for surgeons and surgical personnel, as well as the simple preparation of the instruments, constantly strengthen this partnership.

For us, "creating" means more than just finding solutions in the form of innovative products.

It is the result of high standards, constant development, innovative products and excellent service for patients, surgeons and surgical personnel around the clock.

Please do not hesitate to contact us if you have questions about our company, our employees or our production methods.
